I have read and understood the Participant Information Sheet (V1, 2.2.23) and have had the opportunity to ask questions about the study and the role of a participant.	
I agree to take part in a research interview and for my data to be used for the purpose of this study. I understand that I may be quoted directly in reports of the research but that I will not be directly identifiable (i.e., my name will not be used).	
I understand my participation is voluntary and I may withdraw at any time for any reason until the conclusion of the study in July 2023 after which it may not be possible to remove my data from findings and outputs.	
I understand that my interview will be audio recorded and that recording will be transcribed and anonymised after which the recording will be erased.	
I understand that information collected by the researchers will be kept confidential and that I must keep the discussions confidential.	
I am happy for my anonymised interview transcript to be archived for 10 years with the UK Data Service and the University of Southampton data repository PURE.
